

# QUIK N' CRISPY

## Rapid Air Fryer (RAF)

The Rapid Air Fryer, with dual heating elements to produce a combination of forced hot air and radiant heat; and an elevated perforated cooking basket, prepares ovenable frozen foods to the taste and texture as if they were deep-fat fried. The RAF can now cook at temperatures up to 525°F. which results in cooking times that are comparable to deep-fat fryers for french fries and other delicious menu items. Prepare and serve menu items that are crispy on the outside and moist and juicy on the inside, without the mess and hazards of grease.

## RAF

*Rapid Air Fryer*

- Offer healthier foods
- Increased speed of service - prepare frozen french fries in less than 3 ½ minutes!
- No exhaust vents required
- Easy to program thanks to the easy-to-use LCD touchscreen controller
- Hold & reheat menu items in 90 seconds or less during rush periods
- Safer for employees since there is no hot grease

# FEATURES

- Create and edit up to 108 different recipes with names, temperatures, and times
- USB port to import and export recipes to different machines in your business
- Two-stage filtration system
- Constructed from stainless steel
- Heat shield on the front of the basket to protect the operator's hands
- Bristle brush and dough cutter included

## CERTIFICATIONS

- UL (C & US)

## ACCESSORIES (Not Included)

- Cleaning kit
- Stacking kit
- Pizza basket
- Replacement filters

## TEMPERATURE RANGE

- Up to 525°F (274°C)
